One Swallow Does not Make A Summer

By HOLLAND

And one advertisement does not make a business success. But the man who sees one swallow in the early spring knows that the bird is the forerunner of the coming summer. The swallow may disappear for a time and chill winds may blow, but the swallow will return with other swallows and summer will surely come.

One advertisement will not make your business all that you would like to have it, but it will have its influence and it brings the promise of a future that will be all you expect or desire. Follow it with other advertisements, and soon the sun of prosperity will be the summer of business growth.

You do not expect to do all the business of the week in one day. You do not expect to do a month's business in a week or a year's business in a month. Then do not expect to do a week's advertising in a day or to advertise so much in a week that your business will be kept booming for a month.

Diarrhoea Quickly Cured

"I was taken with diarrhoea and Mr. York, the merchant here, persuaded me to try a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. After taking one dose of it I was cured. It also cured others that I gave it to," writes M. E. Gobhart, Oriole, Pa. That is not at all unusual. An ordinary attack of diarrhoea can almost invariably be cured by one or two doses of this remedy. For Sale by All Dealers.

Howse elected Mayor of Nashville

After one of the most exciting elections every held in Nashville, Tenn. Hilary House was elected Mayor by a small majority over two other aspirants. He defeated Meeks and Cooper by a majority of 800 much feeling was in this race and a very large vote polled.

But He Wouldn't Get Up

There was not even standing room in the crowded electric car, but one more passenger, a young woman, wedged her way along just inside the doorway. Each time the car took a sudden lurch forward she fell helplessly back, and three times she landed in the arms of a large, comfortable man. The third time it happened he said, quietly: "Hain't you better stay here?"—Exchange.

Can't look well? eat well, or feel well with Impure blood. Keep the blood pure with Burdock Blood Bitters. Eat simply, take exercise, keep clean, and good health is pretty sure to follow. —A. J. C.

Missing Girl Found in Mines at Oak Hill

Maud Gamblin, of Nortonville, who has been missing from the home of her father John Gambelin, for several days, was found in an old entry in the mines at Oak Hill. She had a gun in her possession when the officers found her, which she readily gave up when they started to take her home, she refused to go, saying that she had rather remain where she was, and that she would live in the woods before she would live home again. Fred Brown was arrested by Sheriff Stanley and Deputy Claud Ford and taken to Madisonville. He and another boy from Nortonville it is claimed by the girl's father, are the cause of her leaving home. The other boy, when he saw the officers, ran in the direction of Dawson Springs and has not been found to date. Three more young men are implicated in it and warrants will be sworn out today for their arrest. The citizens of that country are very much wrought up over the affair and much talk is being indulged in.

Y. M. C. A. Closed

On account of not being able to get the money to pay off the debt of the Y. M. C. A., that building is closed until enough bonds are sold to pay it. The reading room and baths will be very much missed by the young men of the city, and it is to be hoped that they will soon be open.

Don't Let Baby Suffer With Eczema and Skin Eruptions

Babies need a perfect skin-covering. Skin eruptions cause them not only intense suffering, but hinder their growth. DR. HOBSON'S ECZEMA OINTMENT can be relied on for relief and permanent cure of suffering babies whose skin eruptions have made their life miserable. "Our baby was afflicted with breaking out of the skin all over the face and scalp. Doctors and skin specialists failed to help. We tried Dr. Hobson's Eczema Ointment and were overjoyed to see baby completely cured before one box was used," writes Mrs. Strubler, Dubuque, Iowa. All drug stores or by mail 50c.

Bought Motorcycle

John L. Long has purchased the "Myrtle" Motorcycle from Har- die Wyatt. Mr. Wyatt has purchased from W. J. Bailey, of Madisonville, a "Ford" Automobile. This makes three machines in the city now. D. P. Banks and J. M. Oldham own the other two.

Title of Pope.

It is uncertain when the title pope was first used. The earliest instance we can cite is that of Heraclius, Patriarch of Alexandria, in 222. It is still the ordinary title of parish priests in the eastern Greek church. In the west, it continued for several centuries to be applied to bishops generally, but it was restricted to the Roman pontiff by Gregory VII. in a synod, held at Rome in 1073.

Worth Knowing.

Never throw away pieces of lemon after they have been squeezed with the lemon squeezer, for they come in handy for removing stains from the hands and elsewhere. Dipped into salt they will scour copper kettles nicely, and remove stains from brasswork. Lemon like this will take stains, dirt and odor from pans and kettles as nothing else will. The seeds of fish and onions can thus be easily removed.

GIRLS! GIRLS! TRY IT. BEAUTIFY YOUR HAIR

Make it thick, glossy, wavy, luxuriant and remove dandruff—Real surprise for you

Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after a "Danderine hair cleanse." Just try this—moisten a cloth with a little Danderine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt and excessive oil and in just a few moments you have doubled the beauty of your hair.

Besides beautifying the hair at once, Danderine dissolves every particle of dandruff; cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair.

But what will please you most will be after a few weeks' use when you will actually see new hair—fine and downy at first—yes—but really new hair growing all over the scalp. If you care for pretty, soft hair and lots of it surely get a 25 cent bottle of Knowlton's Danderine from any druggist or toilet counter, and just try it.

County Officials Made Defendants

Several of the County Officials have been made defendants in suits entered by Henry Davis and others of the Nortonville country, with a lawyer from Greenville, to have them pay back into the county, money that is claimed to have been illegally collected in fees and salaries. The outcome of this suit will be watched with much interest by a great many people, as this is the same charges that was made before the Primary by Dr. Vickers against the same men, but it seems as the people did not take much stock in them at this time. The issue will be threshed out before the coming session of the circuit court meeting in Madisonville the latter part of this month.

Mother of Eighteen Children

"I am the mother of eighteen children and have the praise of doing more work than any young woman in my town," writes Mrs. C. J. Martin, Boone Mill, Va. "I suffered for five years with stomach trouble and could not eat as much as a biscuit without suffering. I have taken three bottles of Chamberlain's Tablets and am now a well woman and weigh 168 pounds. I can eat anything I want to, and as much as I want to and feel better than I have any time in ten years. I refer to any one in Boone Mill or vicinity and they will vouch for what I say." Chamberlain's Tablets are for sale by All Dealers.

"Symptoms."

Occasionally an afflicted lady tells why she left her husband. For the married man, of some introspection and conscience, the feeling produced by the recital is something like the feeling one used to have in reading the patent medicine list of "symptoms." He used to feel that he had 'em and deserved the treatment.

Why Snow is Warm.

Snow is warm by virtue of its light and woolly texture. But it is also warm on account of its whiteness. Had snow been black it would have absorbed the heat of the sun and melted quickly. Instead, it reflects heat, and the reflected heat falls upon bodies above the snow, while the warmth of the earth is preserved beneath it.

Practical Ventilating Hint.
The house should be ventilated in winter as well as in summer if the family is to be kept in good health. Bedrooms, especially, should be provided with a free circulation of fresh air. One way to get fresh air in a bedroom without having a draft is to tack strips of cheesecloth across the top and the bottom of the window so that when it is opened in both places the fresh air will enter the room and yet, should there be a strong wind, its force will be broken by the cloth.

Domestic Economist.
An excellent Manchester lady frequently invites her friends to tea, but she does not furnish her table lavishly. When her guests have eaten all the bread and butter and cookies, and realize that the meal is over, she looks brightly at the empty dishes. "Well, now," she says, in triumphant tones, "haven't I judged your appetites exactly?" Manchester Guardian.

Some Good May Be Done.
I told something to a friend once and he replied, "Gee do you want a fellow to be perfect?" I said, "Yes but I never expect to see one, but there's lots of rottenness which can be cut out of the efforts of all of us."—Exchange.

Hookworm Needed Also.
"See that measuring worm crawling up my skirt?" cried Mrs. Bjens. "That's a sign I'm going to have a new dress." "Well, let him make it for you," growled Mr. Bjens. "And while he's about it, have him send a hookworm to do you up the back. I'm tired of the job."

Changing Nature Indirectly.
You are constantly assured that you cannot change human nature; that you cannot make people over by process of law. But if you cannot reform men by reforming the conditions that make men what they are, how is it that you can so easily debauch and degrade them by reversing the process?—Collier's Weekly.

Many as One.
The value of one person's mind or one person's work is steadily diminishing; it is the associate mind, the many hearts beating as one, that now move the world; and this is so well understood by women that they are rapidly learning what can be accomplished in economic, social and intellectual life by the power of an educated public opinion.

Until the Plumber Arrives.
While waiting for the arrival of a plumber, when the water pipes have sprung a leak, the housewife may do a little repairing herself. The water should be turned off and a solder made by mixing some whiting with common yellow soap and just enough water to form a thick paste. Apply this mixture to the leak and in a little while the water may be turned on very slowly. This solder may last a day or longer.

Satisfaction in Life.
I would have nobody to control me; I would be absolute; and who but I? Now, he that is absolute can do what he likes; he that can do what he likes can take his pleasure; he that can take his pleasure can be content; and he that can be content has no more to desire. So the matter's over; and come what will come, I am satisfied.—Cervantes.

His Unavailing Search.
"Well, James Henry Williams, did you enjoy yourself at the seaside?" "Yes, teacher, very much. I liked the sea, but I couldn't find the inthemis." "The what, James Henry Williams?" "The inthemis, teacher; where it says in the Bible, 'The sea and all that in them is.'"

"Thou Madest Me for Thyself."
O thou God Omnipotent, who so carest for every one of us, as if thou carest for him alone; and so for all, as if all were but one! To thee will I intrust whatsoever I have received from thee. So shall I lose nothing. Thou madest me for thyself, and my heart is restless until it repose in thee. Amen.—St. Augustine.

When a Public Official
"When a public servant is doing something he ought not to, he always seems to derive a lot of satisfaction from pretending that his motives are misunderstood," says an Ohio paper. That isn't what he says. He says: "I have no desire to try my case in the newspapers."

Pay Big Price for Water.
Water is sold by the ton at Per nambuco, Brazil. It is piped from springs eight miles out from the city, and is furnished to ships at eighty-one cents a ton within the harbor.

Chinese Memorial Arches.
The p'ailous, or memorial arches of China, says Frederick McCormick, in the National Geographic Magazine, rival the pagodas in grace, beauty and numbers. Many of them are erected to commemorate the devotion of virtuous widows who refuse to remarry. The faded phoenix, which never changes its mate, is prominent in the decoration of these arches.

More Caution Needed.
An exchange tells the story of a little boy whose mother decided that he was old enough to do without her sitting by him when he was put to bed until he fell asleep. So when one night she kissed the five-year-old and told him he was a big boy and brave enough to go to sleep without his mamma and in the dark, too, he pondered the situation a moment and then said: "Well, wait a minute. I've got to say my prayers again careful."—Suburban Life.

Push Cart Fortunes.
The proprietor of the finest cafe in Los Angeles formerly sold "hot tamales" from a push cart, and although he is now wealthy, he still preserves this old vehicle. In erecting a business block to house his modern restaurant he built a cupola just large enough to contain the old tamale cart, and it may be plainly seen from the street.

Can Be in Too Great Hurry.
The man who is in a hurry to reach his office is unfit to be a man of business. He is not a man of business.

To Sweeten Butter.
When butter has become rancid try this method of sweetening it: Melt the butter, skim it, then place a piece of light brown toast in it and in a few minutes the toast will have absorbed the rancid butter.

Higher Equity.
Bismarck used to delight in telling the story of how, when foraging for food with two companions in an almost deserted village, he came upon a man from whom he procured five eggs. Unable to divide five among three, he began by swallowing two; then, calling his companions, shared the three remaining eggs with them—a truly Bismarckian idea of an equitable division.—Fall Mail Gazette.

Guides to Success.
Buy your overcoats in winter when it is rainy when it must be a sign of success is plus.—A. C. Bartlett.

Good Time Coming.

City Judge Wilson, of Madisonville, was in the city Tuesday in the interest of the W. O. W. lodge. They held an open meeting in their lodge room Wednesday evening and had a fine crowd.

Strong in Memory.

Rural winter joys increase in an inverse ratio to the square of the distance, or words to that effect. It will be noticed that Whittier did not write "Snow Bound" until after he had become a city-dweller and the memory of frosted nose and ears and tingling hands and feet had become dimmed and vague. A too accurate memory, like acute truthfulness, is a terrible handicap for a real poet, just as it is to an editor.

Didn't Know Stone's Value.

While rummaging through an old chest Mrs. J. S. Wetzel, of Ravenswood, W. Va., came across an old stone that had been given her by a relative 27 years ago, and which she thought had no value. She showed it to a guest at her home and he took it to a jeweler, who declared it an uncut diamond worth \$1,200.

Peppercorn Rent.

Mr. Staveley Hill, M. P., was at Bushbury paid a peppercorn as rent. The berry was placed in an envelope and handed to Mr. Staveley Hill during a visit he paid to the old village school. In handing over the receipt, he remarked that he was probably the only man in England who received such a payment in kind.—London Telegram.

No Hurry for That Vehicle

A short-sighted old lady in a hurry to mount a tram car held up her umbrella and shouted to the driver of a passing vehicle, "Stop. Stop!" to which the driver replied, "Don't be in a hurry, mum; it ain't your car, it's mine."

"Logging Engineering."

A chair of "logging engineering" has queer sound, but out in Washington the lumbermen insist that they need it in the state university in their business. There are possibly in some eastern colleges professorships more impressively titled that are not of as much practical value.

Our Trouble.

Dr. Orison Swift Marden, discussing success in New York, said: "Economy is the road to financial success—and most people in this impatient age try to do the trip in costly, high-speed coaches."

The city is having screening placed on the street in front of the stores between Barnes Coward corner and Cassel & Maloney's. This has been done for some time.

This is a copy of our Rexall Store advertisement in this week's (Sept. 13) Saturday Evening Post. Read it and profit by it.

If You Knew—

OF the months, and oftentimes years, devoted to painstaking, conscientious testing and proving by actual use of every formula for any Rexall Toilet Preparation before that formula was finally adopted as worthy:

Of the exact, earnest care used in selecting each ingredient, and the rigid testing for purity and strength before it could become a part of the preparation:

Of the guarantee on each Rexall Toilet preparation that, if it does not give satisfaction in every way, "we want you to go back to the store where you bought it and get your money; it belongs to you and we want you to have it;" and,

If You Saw—

The sanitary, airy, sun-lighted, shiningly-clean laboratories in which Rexall Toilet preparations are made; the white-capped, white-aproned, wholesomely-clean young women who put them up; and,

If You Realized—

That the co-operation in buying, manufacturing and selling of more than 7,000 Rexall Stores—one leading drug store in each important city and town in the United States, Canada and Great Britain—makes it possible to reduce to a minimum the cost to you of the finished product;

Then You Would Believe—

Whitelaw Reid to Newspaper Men.
Whitelaw Reid, in a speech some years ago at a literary dinner, delivered himself of a maxim which he suggested should be hung up in every newspaper office in the world. It was: "Fewer words, shorter stories, better told." And all the newspaper men present raised a cheer.

Error of Intellect.
Through the ordinary course of mortal failure and misfortune, in the career of nations no less than of men, the error of their intellect and the hardening of their hearts may be accurately measured by their denial of spiritual power.—Ruskin.

Tombstone as a Barometer.
Upton, near Peterborough, one of the smallest parishes in England, numbering only fourteen houses, possesses a mysterious tombstone of black marble, which emits a damp ooze in patches when it is about to rain. It is regarded in the village as an infallible barometer.

Cause of Fall of Bullet.
The resistance of the air and the attraction of gravitation cause a bullet or cannonball to end its flight and fall to the earth; these two forces operating together cause the projectile to describe a curve dependent on its initial velocity. The greater the speed at the beginning the farther it will go.

Constitutional.
A little four-year-old girl was walking with her mother, when a caterpillar, the first she had ever seen, crawled in front of them. "Muvver, muvver!" she cried excitedly. "Look! Your muvver's little girl is out taking a walk!"—Everybody's Magazine.

Just Before the Fight.
"So you are on your way to propose to Miss Pickle?" "You bet! Wish me luck!" "Oh, I wish you luck, all right; but it won't do you a bit of good; I feel sure she is going to accept you."—Houston Post.

Barred Hot Water.
"She threatened to throw hot water in my face," said a school attendance officer, referring to a woman who had been summoned in respect of the truancy of her child. "You must not throw hot water," the stipendiary told the defendant. "You can heap coals of fire on his head, if you like."

Brevity in Correspondence.
For brevity nothing can beat the correspondence between Victor Hugo and his publisher on the issue of "Les Misérables." Very busy but anxious to know how the book was selling, Hugo sent the publisher a card marked simply "7." The reply came back "7."

She Knows.
"You never thank a man for giving you a seat in a street car." "Not any more," replied Miss Cayenne. "I used to until I noticed that almost invariably he was going to get out at the next corner anyhow."

Beauty.
Beauty is as summer fruits, which are easier to corrupt and cannot last; And, for the most part, it makes a disolute youth and an age a little out of countenance. But yet certainly again, if it light well, it maketh virtues shine and vices blush.—Bacon.

Natural Question.
"I am so very fond of music," said Miss Kittish, as she swung herself round on the piano stool and faced Mr. Harkins, who was humming away for half an hour. "Ah!" replied thoughtlessly. "Lessons?"—St. Louis.

Truth.
It is more from carelessness about truth than from intentional lying that there is so much falsehood in the world.—Dr. Samuel Johnson.

When The Show Comes to Town
Amusement seekers and show goers of Earlington will have the treat of their lives September 13 when the famous Sun Brothers' Worlds' Progressive Shows appear here. Nothing better has ever before been seen in this section.

Every dream of boyhood day will be realized. The peanuts, the caramels, pink lemonade, the clowns and the smell of the fresh shavings, the whole good atmosphere of the tenced show will be there. Every act with the show this season is entirely new, novel and of an ultra-meritorious character. A noteworthy engagement this year is the positive appearance at each performance of the famous Electric DeKamos, a quintette of high air equitation artists. Did you ever see a whirling Dervish? This act is doubly discounted by the Electric DeKamos. They float through the air like winged seraphs, and whirl through the empyrean like whirling dervishes and all that sustains them is wires gripped in their teeth. It is indeed one of the most amazing and superbly ornate dizzy high performances ever conceived.

Nearly one hundred performers take part in the big programme and are all artists of extraordinary ability. In the wild beast department will be seen many unique, strange and distinctively novel specimens of the animal kingdom and zoologic creations, and all are exhibited in a classified manner and explained by competent keepers and lecturers. Seats are provided for all patrons and the tents are well ventilated and commodious. Courteous ushers are in attendance to show visitors to eligible seats. Courtesy being a red letter rule with the Sun Brothers' Shows. The big aggregation will arrive here by special train, and will spread their tents on the grounds at Earlington, Saturday, Sept. 13.

Asbestos.

Asbestos is a mineral of a fine fibrous character, the fibers being easily separated, elastic, flexible, and of a whitish-gray color. It is composed chiefly of silica, lime, magnesia, and oxide of iron. The ancients converted it into a kind of cloth, in which they wrapped the bodies of their dead, while preparing them for the funeral pile; the cloth being indestructible by fire, enabled them to preserve the ashes. Asbestos is found more abundantly in Corsica than in any other locality.

Prevents Cracks.

A small amount of vaselin rubbed into patent leather shoes occasionally will keep them soft and prevent cracking. Footwear of this leather should be kept freed when not in use.
